Technical Data

Keyfeatures

Latte Macchiato at the touch of a button	■
Cappuccino at the touch of a button	■
Energy Save Mode (E.S.M.®)	■
Active bean monitoring	■
Sounddesign	■
Adjustable coffee strength	■
Rotary Switch	■
Graphic display	■
Two separate heating systems	■
Counter for cups dispensed	■
Indication of care status	■
TÜV Certificate for user-friendly operation manual	■

IMPRESSA key technologies and standards

Intelligent Pre Brew Aroma System (I.P.B.A.S.®)	■
CLARIS plus filter cartridge (I.P.W.S.® compatible)	■
Two cups in a single brewing operation	■
Powerful 6-level conical grinder	■
Two thermoblock heating systems	■
High-performance pump, 15 bar	■
Coffee powder shaft for second pre-ground coffee	■
Multilingual display dialogue system (7 languages)	■
Automatic recognition of filter change	■
Automatic recognition of maintenance programmes	■
Cup illumination	■
Power Switch	■

Programming

Programmable brewing temperature	■
Programmable water quantity for coffee	■
Programmable hot water	■
Programmable switch-on time	■
Programmable switch-off time	■
Automatic switch off	■
Integrated rinsing/cleaning/descaling programme	■
Adjustable water hardness	■

Preparation Times

1 Espresso (50 ml)	approx. 30 sec
2 Espresso	approx. 45 sec
1 Coffee (100 ml)	approx. 40 sec
2 Coffees	approx. 65 sec
1 Cappuccino (60 ml coffee)	approx. 55 sec
1 Latte Macchiato (35 ml coffee)	approx. 75 sec

Capacity

Daily capacity	approx. 50 cups
Volume of bean hopper	260 g
Optionally expandable to	750 g
Volume of grounds container (portions)	approx. 40
Water tank capacity	5.7 l

Accessories (all optional)

Milk Cooler	■
Cup warmer	■
Permanent connection to water supply	■
Catering Mobil	■
MDB Interface	■
Different billing systems	■

Facts

Variable brewing unit	5 - 16g
Height-adjustable dual-purpose dispenser	66 - 146 mm
Weight	13.8 kg
Dimensions (W x H x D)	41 x 47 x 39 cm
Cable length	1.1 m
Intensity of current	10 A
Voltage	230 V AC
Power	1350 W
Tests	CE S
Article number IMPRESSA Xs90 One Touch	13363
EAN-Code	7610917133635
Swiss Made	■

Coffee solution

IMPRESSA Xs90

One Touch

Mention the word 'coffee' today and people no longer think of just espresso or milk coffee but also popular favourites like latte macchiato or cappuccino. A trend that now extends itself to boutiques, offices and the catering sector. So the fact the IMPRESSA Xs90 One Touch produces no fewer than twelve different coffee types – including latte – at the touch of a button is welcome news. And thanks to its compact dimensions and lightweight (13.8 kg), the machine delivers the mobility we associate with JURA.

Design

From the start it was clear that the design of the machine would have to reflect the quality and characteristics of our freshly prepared coffee specialities. Controls such as the selector with backlit pictograms, the Rotary Switch or the graphics display are not only eye-catching optical highlights but also an immense aid to navigation from the word 'go', not mention to the illuminating light for your coffee preparation.

Ecological intelligence

The IMPRESSA Xs90 One Touch helps relieve the strain on the environment and your budget. Thanks to Energy Save Mode (E.S.M.®) the machine uses up to 40% less energy and, if you so wish, switches automatically to standby mode after a certain time. And if you are planning not to use the machine for an extended period of time – during holiday periods, for instance – you can use the power switch to disconnect it from the power supply.

Time management

For most of us, enjoying a well-made cup of coffee is one of life's daily pleasures. The IMPRESSA Xs90 One Touch is fully aware of this and comes with an integrated time management system that ensures you never miss one of those special moments in the day. At any given time, the machine switches on – or off – automatically and ensures you have the kind of coffee you want, when you want it. And, needless to say, only on those days of the week you have preprogrammed it.

An all-round coffee solution

Using optional modules such as the Cup Warmer, with a matching Milk Cooler or an accounting Interface, the machine can be upgraded into an all-round coffee solution or optimized for self-service areas. Even people with little or no experience of coffee machines will find it a snap to operate because the controls are intuitive and easy to understand. The programming buttons are concealed discreetly behind a flap. And if circumstances require, these can even be blocked to only be accessible to specific users.
